Press Release

WATER MAIN FLUSHING

Flushing begins on Wednesday, March 21, 2018

Sikeston, Missouri, March 6, 2018: The Sikeston Board of Municipal Utilities (BMU) will be flushing our water mains beginning Wednesday, March 21, 2018. This is a normal maintenance flush to maintain water quality. The flushing should take two (2) to five (5) days to complete. Please help by notifying neighbors who may not be aware of the flushing.

The BMU would like to advise our customers that the water may be temporarily discolored through the flushing. The water is still safe for consumption, but it could discolor light-colored clothing while laundering. Please check your individual water supply before laundering.

The BMU appreciates our customers and we apologize for any inconvenience this may cause. If you have any question, please call our office at (573) 471-3328..

For Release on March 6, 2018
